PASSING OF GOTTH HAIST

Death of one of Nevada's Highly Respected Citizens.

The sad news was received in Reno yesterday morning of the death in Virginia of Gotth Haist, one of the best known men in the State. The Report contained the following notice of his death and brief history of the deceased:

Gotth Haist died at the Locklin residence on North B street at 7:30 last evening, after an illness of thirteen months.

He was a native of Germany and was born in Stuttgart, the capital of Wurtemberg, in 1823. He served in the Prussian army where he attained the rank of Lieutenant. Emigrating to this country in 1846, he arrived in New York September 10 of that year. He arrived in Monterey, California, on September 10, 1847, and was employed by Fremont as a pony express rider in carrying military dispatches between Monterey and the Mexican frontier during the war between that country and the United States, in which he had a brother killed, who was a member of an American volunteer company.

He arrived in Downieville, Cal., in 1856, where he was engaged in mining

until 1863, in which year he arrived on the Comstock, where he followed various occupations until 1875, when he was appointed Superintendent of the Pacific Milling and Mining Company, which position he held until 1877, since which time he had been employed as surveyor by Comstock mining companies up to the time of the illness resulting in his death. During his long residence on the Comstock he acquired the respect of the entire community and possessed all the attributes of an estimable citizen.

IN MEMORY OF THE DEPARTED

Beautiful Services by the Brotherhood of Elks.

The annual Lodge of Sorrow by Reno Lodge, No. 697, Benevolent and Protective Order of Elks, was held Sunday in Piper's opera house, Virginia.

A trainload of Elks went up from Reno and a number were present from Carson. The entire auditorium was filled with lodgemates and the public.

The services were very impressive. After an orchestral selection the opening ceremonies were performed and a duet was sung by Mrs. J. D. Torrey and son Mrs. E. B. Verlington.

Responses were made by officers of the lodge and the opening ode was sung. Prayer was offered by the chaplain and another orchestral selection was rendered. A. A. Borlini sang "Calvary."

The eulogy of departed members was pronounced by F. P. Langan. Music was rendered by a quartette, after which a memorial address was delivered by Dr. Stubbs. A cornet solo was played by Richard Tobin.

Miss Alice Brennan recited and music was rendered by the quartette. After closing ceremonies by the lodge, "America" was sung by the assemblage and the benediction was pronounced.

The Report says that the departure of the visiting Elks was witnessed by at least 500 people assembled at the V. & T. railroad depot, where a majority of them joined in singing "Auld Lang Syne," and all of them participated in justly cheering the departing visitors in return for three cheers for the Comstock by the departing Elks in response to a request by Ruler W. L. Cox.

THE ROLL OF HONOR

Pupils Who Merit Mention.

Monthly Report of the Principal of the Schools.

To the Honorable Board of School Trustees, Gentlemen:

I have the honor herewith to present my report for the school month of November:

The attendance continues good, enrollment 746, and work is progressing well in all departments.

The first grades three rooms, are too full for the best work. Miss Jameson has 53, Miss Unruh 53, and Mrs. Logan 57. Each has all the divisions of the first grade in her room and, in addition, a second grade class. Substantial relief should be given them in January.

The kindergarten has had much to contend with in the past three months. For two months the teachers have been expecting weekly to get into the new building. Being without stove or wood at the seminary, Misses Nichols and Jameson have had to provide for those in their private rooms.

The school room being so far from town, the attendance has been small, and so, many have been deprived of kindergarten privileges. Misses Nichols and Jameson have been very patient and painstaking under very trying circumstances.

HONOR ROLL.

High School: Mrs. M. S. Doten, Miss A. H. Schadler, Mr. T. A. Brandon, and the principal, teachers.

ECHOES FROM THE PULPITS

Items Regarding Religious Work in This City.

BAPTIST CHURCH—We had a real interesting little series of services at our church last week. The meetings were very well attended and the results will be good. A dozen or more persons have expressed a desire to take membership with us and our work is taking shape and is going to develop nicely.

The first public meeting of the Young People's Christian Alliance of Reno was held Sunday evening in the Congregational church. The young people's devotional hour was participated in by a large number, and the splendid topic, "Children of God," was well presented and much enjoyed by the large audience.

At the mass meeting in the auditorium Dr. Walker, president of the Alliance, presided. Dr. Walker, in a few well chosen remarks, stated the purposes for which the organization has been formed. He then introduced Dr. Kennedy of the University, who delivered a thoughtful address on "The Evolution of Religion." Dr. Kennedy's address was a good argument in support of his theme and many of the suggestions made would be immensely valuable if put into practice.

Rev. Wm. McCarty of Wadsworth was in town Monday and called on the Baptist pastor.

Mrs. Smith, a member of the Baptist church in Wadsworth, was in town yesterday transacting business for her church. They expect to dedicate their house of worship, free from debt, early in January.

Thursday and Friday afternoon and evening of this week the Baptist Ladies are going to give a Christmas Bazaar at the new Becker building on Sierra street. A good musical and literary program will be given each evening. Fancy articles of every imaginable description and useful things of all kinds, besides refreshments, candles, pastries, and other things too numerous to mention will be in evidence. Remember the time and place.

VOLUNTEERS OF AMERICA—The service in the armory Sunday afternoon was one of interest to the children and quite a number of little ones were present. The usual evening service commenced at 7:30 and was led by Lieut. Myrtle Ash. Many Christians took part in the testimonies and a better spirit and greater interest than ever before was manifested all through the meeting and many men that never would enter the portals of a church spent the evening listening to the interesting talk of Captain Hogenson, who, in simple, but plain language, showed to them the folly of sin and pointed them to the Christ who died for all.

PYRAMID MINES ARE BEING DEVELOPED

Report Comes of a Good Strike in the Pacific Consolidated Workings.

Superintendent Parry returned from Pyramid last evening. There are seventeen men employed in the Empire Copper Company's mine. The property of this company consists of twenty-six claims. Several men are employed in the Pacific Consolidated. This property embraces six claims.

A strike was made in the Pacific several days ago. The ore comes from \$25 to \$100 in gold and silver per ton in addition to considerable copper.

The Empire mine is looking up very well. An upraise is being run in a ten-foot ledge of shipping ore. Senator Pettigrew recently made a very flattering report on this property. In the spring the working force on both properties will be largely increased.

JOHN H. DENNIS, Editor

ROCKEFELLER AND RELIGION.

JOHN D. ROCKEFELLER is a very religious man judging by his prominence and activity in religious work, though his enemies assert that his religion is not allowed to interfere with his business and that no religious principles are considered in the management of the Standard Oil company of which he is the principal owner. John Rockefeller, Jr., is also active in religious work and teaches a Bible class every Sunday. A few Sundays ago he took up these verses in the sixth chapter of Matthew:

Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal.

But lay up for yourselves treasures in heaven where neither moth nor rust doth corrupt, and where thieves do not break through nor steal.

His explanation began this way:

So few clearly understand their true meaning. So few have looked deep enough into the thought that is so well expressed. They do not necessarily mean money, they may mean anything else. They may mean any other calling in life that men may devote too much attention to and forget spiritual blessings. A man may possess great wealth on earth and at the same time build up treasures in heaven. Wealth is not necessarily an impediment to a man's admittance to the beyond.

Before the last sentence can stand, Mr. Rockefeller will have to explain another verse which makes reference to the passage of a camel through the eye of a needle. The Rockefellers are inclined to the dictatorial in regard to the preaching under which they sit. They appear to be as much concerned to have the right kind of preaching in the churches they attend as to have the right kind of teaching in the Chicago University, of which they are patrons. Ministers and professors appear to be their especial care.

The Standard Oil company, which is Rockefeler, does not believe in ministers engaging in work or business outside of their profession. A short time ago Rev. Phillip E. Holp, a Congregational minister at Angora was deposed for starting a movement to reduce the price of gasoline and kerosene by the organization of a local company, the making of storage tanks, filling them with oil and gasoline purchased from independent refineries, and the plan was successfully carried out. The Standard company had been charging 13 cents per gallon for oil and gasoline. As soon as the independent company received its supply, the price dropped to nine cents, not only in Angora but in all towns thereabouts, which had adopted the independent system, when the first one proved such a success. Many of Mr. Holp's church members were employed by the Standard Oil company and it is asserted without contradiction that it was through the influence of that company that the pastor was driven from his pulpit, although it was not charged that he had neglected his duty as a clergyman, and it was conceded that his speculations were not for personal profit.

Thrifty Rockefeller! His conduct calls to mind a satirical verse of Burns:

They tak' religion in their mouth,
They talk o' mercy grace and truth
For what? To gie their malice skouth
On some pair wight
And hunt him down o'er right and ruth
To ruin straight.

TO HAVE BEEN EXPECTED.

REV. C. W. BLODGETT, of Cincinnati, in a sermon on newspapers is quoted as saying:

"Sheldon's experiment was a failure and a farce, for the reason that he had neither the newspaper instinct nor the right discrimination as to news."

The newspaper of today is the college of the masses. Its criticism of men, measures and platforms has a tendency to take the conceit out of people and movements. The majority of the press is on the side of Christ rather than evil.

The owner of the Sunday newspaper is not to blame for its existence. The Christian merchant demands its existence."

The Sheldon experiment was foredoomed to failure. It takes a newspaper man to run a newspaper. Journalism is as distinct a profession as medicine or the law, and requires study and experience to master it. A lawyer, clergyman or doctor, is as far away from home in an editorial room as the average journalist would be in the courts, the dissecting room or the pulpit. The fact of most importance in estimating the value of newspapers is pointed out by Mr. Blodgett, that they constitute the college of the masses. It is the only outside influence that reaches down among all classes of people. It goes where ministers do not go, and perhaps sometimes where they should not go; it is found where churches do not exist; it fills a want in the lives of the people that nothing else can supply. It preaches and teaches; it instructs and en-

tarts. It must entertain or it cannot teach and preach. It is what its patrons require it to be. If it failed to please them, it would no longer reach them.

THE Philippines are a part of the United States, if the commissioner of internal revenue knows his business. He decided that beer brewed in the United States must pay an internal revenue tax. If the treasury department knows its business the islands are not part of the United States, for the treasury officials hold that a tariff must be paid on goods exchanged between the islands and the United States. The administration seems determined to get all the revenue it can out of the situation, while awaiting the decision of the Supreme court.

THE COMMONER says that no nation in Europe would wage war with the United States in order to secure the Philippine islands. And Mr. Bryan might have added that no nation in the world, except the United States, would pay the price in treasure and human life that we have paid and are still paying for those land dots in the orient sea.

THE revenue law enacted by the last legislature has been sustained by the Supreme court. While the Journal regarded the law as a wholesome statute, after reading Judge Bonnifield's decision in the test case tried before him in Humboldt county we were inclined to the opinion that it was technically unconstitutional, but it appears that the Supreme court thought otherwise, and we are rather glad of it.

THE desert land law is not being complied with in the matter of bringing water upon the land as therein provided. It has enabled a few individuals to secure possession of large areas and the development of the arid land sections has been retarded thereby. It is simply a land grabbing statute and should be repealed.

LESS than thirty days remain in this year and \$100 worth of assessment work must be done on every mining claim taken up under the mineral location laws of the United States, one year previous to January 1st, 1902, before the expiration of the year.

IT seems to be an easy enough matter to locate Gen DeWet, according to Gen. Kitchener's report; the great problem is, to capture him, and there is yet no evidence that Kitchener has had the courage to attempt its solution.

Vanduzer Caricatured.

The Journal's special correspondent at the Inter-State football game, Hon. C. D. Van Duzer, was cartooned in both the Salt Lake Herald and the Tribune. Each of the artists portrayed the beetling brow and well-developed nasal appendage of our "special commissioner" with remarkable fidelity.

Revenue Law Upheld.

The Supreme Court in Carson yesterday upheld the law in the revenue case of Hardin vs. Guthrie, wherein the plaintiff had secured a writ of mandamus compelling the Assessor of Humboldt county to assess plaintiff's cattle at \$12 instead of \$17 a head.

Testing the Ore.

Professor Jackson has about finished his tests of the Reno Star ore to discover if the contemplated system of reducing the output of that mine is the best and most economical. If the results are satisfactory the new mill will be installed early in January.

Time to Begin.

It is time for the people of Reno to begin planning for the street fair. It is the consensus of opinion that one should be held and it is none too soon to begin planning for it.

Routine Business.

The County Commissioners were in session yesterday. Little was done except routine business. A big batch of bills were allowed.

The fathers will meet today as a town board.

Stekle Will Return.

Coach Stekle of the Varsity football team is in Chicago. He expects to return to Reno in the spring and practice medicine here. He will bring his two brothers, both of whom are good football material.

The Colonel Promoted.

General Manager Bowen of the Sierra Valley railway company came up from Oakland yesterday. He will call upon Senator Summerfield today and receive his commission as major-general.

Financial Talk No. 8.

John D. Rockefeller began life as an Office Boy—he is now One of the Richest Men in America.

A LITTLE FARM WELL FILLED. One can see how changeable the assets and liabilities accounts in Building Associations are, when it is stated that one association alone in Philadelphia will pay off a series of shares this month aggregating \$142,800.00. This will instantly cut down the asset \$142,800.00, at the same time the liabilities will be decreased a like amount. In the general asset account of the state of these associations this large item will figure in any decrease in asset that may be down. Other associations will have to gain \$142,800.00 to hold their assets account even with last year. The amount paid out in Philadelphia every year from matured equ pnope pur's snowious sq savous total assets next year show lower figures than this year the enemies of these associations will herald a big loss of assets and state that Building and Loan Associations are on the decline—they are not permanent. The building associations having assets this year of \$300,000.00, and next year of only \$150,000.00, may be at that time in quite as good financial condition as before, and perhaps better.—B. & L. Herald.

SAW DEATH NEAR.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma, and all Throat and Lung diseases. 50¢ and \$1.00 at S. J. Hodgkinson's Trial bottles free.
